info@mhadutchess.org

Mental Health America of Dutchess County is a non-profit organization dedicated to making sure nobody gets left behind in our community due to lack of mental health services. Our staff and volunteers work day and night to: strengthen families, overcome fear, help people dealing with anxiety, link individuals to the supports they need, provide safe spaces to heal, break down stigma...and much, much more.

Below you can find a list of services we provide along with who to contact.
